

TELESLIDE PATHO 5

Next-generation telepathology solution
for remote case review

ULTIMATE CLINICAL CONFIDENCE. MAXIMIZED LAB PRODUCTIVITY.

Introducing TeleSlide Patho 5, the next-generation telepathology solution for remote case review.

TeleSlide Patho is an online telepathology platform dedicated to sharing digital slides and other multimedia documents for the purposes of obtaining an expert and qualified first/second opinion. Since its commercial launch, TeleSlide Patho (formerly TeleSlide TeleMedecine) has been adopted by many labs and hospitals across the world. **TeleSlide Patho 5 is the ideal solution to complete your digital pathology workflow and provides timely, clinical expertise to the patient.**

**Making pathology expertise accessible for everyone,
from anywhere, at any time.**

**EXPERTISE AND
ACCESSIBILITY**

Access to an expert diagnosis
wherever you are in the best
time frame.

**SCALABILITY AND
PRODUCTIVITY**

Modular platform architecture
that fits seamlessly into
your workflow for improved
productivity.

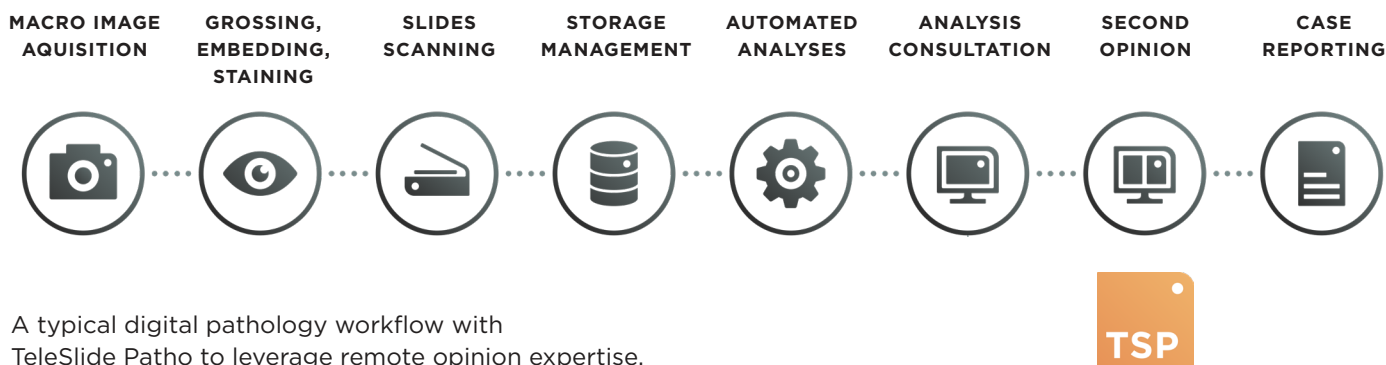

**QUALITY AND
PRODUCT SAFETY**

Professional and secure tool
that ensures ultimate data
protection.

Improve your **Digital pathology workflow**

Several studies have demonstrated an improvement in case accuracy when a second opinion is used. TeleSlide Patho enables the implementation of tele-expertise networks, which allow an initial diagnosis to be reviewed and validated in the best timeframe. **The TeleSlide Patho platform provides the workflow solution for timely and accurate clinical diagnosis leading to optimal patient care.**

A typical digital pathology workflow with TeleSlide Patho to leverage remote opinion expertise.

Wherever you are, take advantage of expert diagnosis for reliable clinical answers.

Ensure diagnostic continuity with TeleSlide Patho 5 by remotely sharing patient information and images to guide clinicians' treatment plan decisions in a timely manner. Given today's scarcity of medical resources and ultra-specialization of clinical expertise, the need to ensure expert diagnoses is readily accessible is critical.

Customize the platform for optimal integration into your workflow.

Dreaming of a smooth and more flexible workflow? Whether you work from the office or remotely, TeleSlide Patho 5 is a web-based solution that seamlessly integrates into your workflow to enhance and augment your productivity. Our teams will work with you to customize the platform to your needs. TeleSlide Patho 5 can also be used by the pathologist to remotely interpret frozen sections, thus significantly improving surgical workflow and efficiency.

Enjoy peace of mind with a secure, professional solution.

TeleSlide Patho 5 is a professional tool that accompanies you along your digital journey enabling you to meet the growing challenge of delivering more time-sensitive case reviews with a higher level of analytical sophistication. The web-based solution is integrated within the Tribun Health Suite and is supported by advanced optimization and automation workflows which includes image acquisition to analysis and automation to reporting. All our solutions are developed with secure privacy protocols and leverage the current best practices in terms of cyber security and data protection.

Harness the power of TeleSlide Patho 5

A protocol is a dedicated workspace customised to your needs within the TeleSlide Patho solution. Our customer experience team will work hand in hand with you to customize your application from start to finish.

ADMINISTRATION OF THE NETWORK OF EXPERTISE PER PROTOCOLE
